

Voucher recipients will be placed back on the HCV Waiting List in the same position they were previously. When funding becomes available, JHA will update their eligibility for participation in the program and issue them a new voucher.

It is very important that voucher recipients keep the HCV Program updated with their current mailing address at all times. If any written correspondence mailed to the address that was provided is returned to JHA as undeliverable for any reason, they will be withdrawn from the waiting list without further notification.
